Bishop Murray High School Drivers Ed Program

"Saskatchewan Government Insurance (SGI) and provincial school divisions offers a driver education program to high school students free of charge. Participation in this program allows you to obtain your learner's license at age 15.

A driver education program is offered for students at Bishop Murray High School through a partnership with Leap Professional Driving School Ltd (LPDSL)

The program has 30 hours of in-class instruction and 6 hours of in-car instruction. The [Class 7 learners](#) knowledge test is administered as part of the program and completed during the in-class instruction at school. **(If you already have the learner, that will be beneficial)**

If you're 15 years of age and registered in a High School Driver's Ed Program but have been placed on a waiting list, you're still eligible to write the class 7 license exam to save the time **(But still need to attend the in class and in car portion of the course because its Mandatory).**

To be eligible for the road test, SGI requires that you:

- A:** Be at least 16 years of age
- B:** Have completed the High school driver's education program.
- C:** Have held a valid learner's license for at least 9 months.

In order to write the exam at SGI Central Office Downtown you must present a copy of the [Signature/Guarantor Form](#) confirming you are enrolled or intend to be enrolled in a driver education program. The Signature/Guarantor Form is available at your high school drivers ED bulletin board. For more information, please contact the [SGI website](#) or your drivers ED teacher asap.

***To enroll in the Driver Education program, students must register with
Leap Professional Driving School Ltd through:***
