University of Saskatchewan:

1. How can students get a head start with summer classes? By starting classes in the summer term, students can:

- Get ahead in their degree program
- Lighten their course load for the upcoming academic year
- Complete a prerequisite for a future math or science class

Many classes are offered 100% online, or students can choose in-person classes and get to know campus before fall! Who can take summer classes? Summer classes could be a great option for students who have already applied for admission for the 2026 Fall Term. Find deadlines to request a change to students' start term online. Canadian citizens and permanent residents who haven't applied for admission yet have until May 1 to apply for most undergraduate programs accepting students for the 2026 Summer Term.
