

Welcome to St. Paul School!

Our school combines the warmth and safety of a small community with the programs and opportunities of a larger school.

Families Love St. Paul School:

Small School, Big Community Charm: With just over 150 students from K-8, all staff know every child by name. It's a place where friendships and relationships matter.

Faith, Hope & Love: We are a community of faith, incorporating Gospel values in daily learning and relationships. You do not need to be Catholic to enrol.

100% Early French Immersion: Students start learning French in Kindergarten or Grade 1, fully immersed in a supportive, enriching environment. Parents don't need to speak French!

Commitment to Academic Excellence: Our school's Learning Improvement Plans prioritize math and literacy from K-8.

Supports for Every Learner: Learning Assistance Teacher, Educational Assistants, English as an Additional Language teacher, and counsellor to help ensure every child can reach their potential.

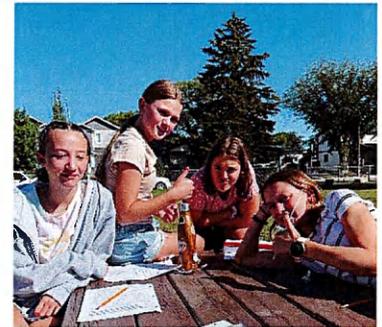

Modern Classrooms & Resources: Smartboards, iPads, laptops, and a vibrant library help students thrive in French and English literacy.

Outdoor & Experiential Learning: Students explore our outdoor classroom, parks, river, university, skate rinks and participate in land-based education activities throughout the year. The school is in a great location!

Clubs, Teams & Leadership: From Student Leadership programs, spirit days, and house leagues, to band, sports, and Battle of the Books, students enjoy opportunities to grow beyond the classroom.

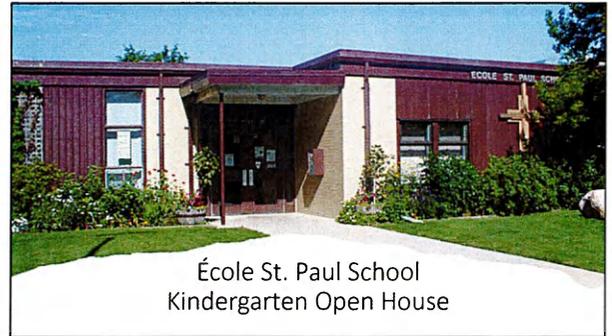

Family & Community Connections: Parents actively participate in classrooms, school events, and our Catholic School Community Council (CSCC), helping create meaningful experiences for all.

Convenient & Accessible: Large bus zone serving River Heights, Lawson Heights, Caswell, Mayfair, Richmond Heights, City Park, and downtown. Before and after school care provided by Boys & Girls Club (7:15 AM–5:30 PM).

Our school combines the warmth and safety of a small community with the programs and opportunities of a larger school.

The Benefits of French Immersion at École St. Paul:

Early French Immersion Works

Earlier and more exposure is best for language proficiency. Our school is an Early Immersion program where students begin learning French in Kindergarten or Grade 1. This program typically leads to higher French proficiency and stronger academic outcomes.

We are a single-stream school – all families enrol their children in our French Immersion program. This means morning announcements and hallway and playground interactions are in French.

About 90% of the day is taught in French in K, Grade 1, and Grade 2, reducing to 80% starting in Grade 3 when English Language Arts is introduced.

Parents Do Not Need to Speak French

You can fully support your child without knowing French. Our program is designed for students learning French as a new language, with guidance and resources to help families stay involved and engaged even without speaking French at home.

All Students Can Succeed

Learning French, like any new skill, will have its ups and downs. Teachers meet each child where they are, providing support, planning, and ongoing communication.

We offer small-group and targeted interventions and support in French when needed.

English Skills Remain Strong

Formal English instruction begins in Grade 3. Research shows French Immersion students' English skills meet or exceed those of students taught only in English by Grade 5 or Grade 6.

Students Set Up for High School Success

Students leave our school after Grade 8 prepared for the demands of French Immersion at high school. Upon graduating, they earn a Bilingual Mention at Grade 12 graduation.
