

Graduates and families,

A few updates from the committee to pass along:

- The bottle drive was held on Saturday. Despite low participation from graduates, we were able to raise almost \$2000 towards after grad activities.
  - The Drop and Go remains active under the account: BJM Grad
  - If you were not able to participate on Saturday, please utilize the Drop and Go to further the success of this fundraiser. We cannot emphasize enough that with a small amount of participation from more families, everyone will benefit from lower costs for the graduation event.
  - Thank you to the parents that helped us!
- What's up next for group fundraising?

### Sponsorships/Donations/Fundraising

- We continue to request that families reach out to businesses and contacts that may be interested in providing prize donations to provide at the after grad
- We are grateful for the sponsorship we have received so far, but if you are able to receive sponsorship from your contacts, it makes a big difference in the cost of this event. Please continue to seek out sponsorship.
- Fundraising – we mentioned at the parent meeting that we would have group fundraising as well as individual opportunities for fundraising. Selling Co-Op and Prairie Meat gift cards are two fundraisers we are prepared to proceed with if there is enough interest from the graduating families. If you intend to participate, please indicate on google form.

If you have any questions, please reply by email to this address.
