

1 Educational Commitment

1.3 Special Places of Faith and Learning

Policy

Catholic schools celebrate learning illuminated by faith and guided by Christian wisdom:

1. To help students seek truth as critical learners and to become active in their own education.
2. To recognize the inter-relationship of all knowledge in a world created by a loving God.
3. To enable students to interpret the natural world and human responsibility within it.
4. To encourage harmony of science and technology with God and society.
5. To foster the creative potential of each student.
6. To understand language and to acquire knowledge of human culture.
