

EDSBY 101

STAY CONNECTED TO YOUR CHILD'S LEARNING AND SCHOOL EVENTS!

What is Edsby?	 Edsby is a student information system. It is the main communication between home and school. Edsby is the keeper of student progress, attendance and information from the school and classroom teachers. Edsby can be accessed via the website or an app.
	• Edsby can be accessed via the website of an app.

Where Do I Start?

Check your email for a message titled "Invitation from Edsby"

- 1. The school will send an Edsby invite to the email that you provided. For families with multiple children, you will receive separate invites. **Please sign up for EACH child!**
- 2. The first time you accept an invitation, select the "I don't have an Edsby account" option.
- 3. Your username will be the email you provided the school and you will be prompted to create a password. Click on "Create Edsby Account" when you are done.
- 4. If registering multiple children, you do not need to create an account again. Instead, select the option that states "Login to your existing GSCS parent account".
- 5. Once all children are connected, **Download** the **Edsby app** or use the web version, **gscs.edsby.com** and log in to your Edsby account to find all school-related information.

Tip: When using the app it will ask for your school's server address. Type **gscs** and **click next**.

Notifications

Setting your notifications is very important to stay up to date with school events

- 1. Click on the three bars in the top left corner of the app.
- 2. Click on "Settings".
- 3. Click on "**Notifications**".

There are 3 areas of notifications (general, organization and children). **In each area, you can choose how you want to receive notifications.** These notifications **can always be adjusted**.

Communication

Updates on your child's learning, school wide events, and division wide events

From the office you can expect: Information about school-wide and division-wide activities and events.

From the teacher you can expect: Upcoming events in the classroom, broadcast messages to all parents, personal messages and updates on your child's learning progress through the learning story and/or gradebook.

Attendance

Parents are expected to enter in absences using Edsby

In the Edsby app or on the website, click on Absent Today or Plan an Absence.

Absent Today - Fill in a reason and an optional comment and click on "Send to School Office".

Planned Absence - Choose a date and time. You can choose "beginning of the day" or you can select specific times, again give a reason for absence and add comments and "Send to School Office".

Three-Way Conferences

Check your Edsby messages

During reporting time, **you will receive a message from the school when it is time to log on and schedule a three-way conference**. This is another reason why it is important to have your notifications set to receive message notifications.
